## EDUCATION

---

### Bachelor of Technology (B. Tech.)

Sharda University, Greater Noida (India)

July 2019 - May 2023

### Secondary School - *PCM+ Computer Science*

Kendriya Vidyalaya, Patna (India)

April 2016 - March 2018

## PROJECTS / EXPERIENCE

---

### E Zey [e-commerce]

- Developed a responsive e-commerce platform using React.js, incorporating Firebase for real-time user authentication and inventory management, achieving a 30-second reduction in average page load time, enhancing customer experience by 40%.
- Integrated Firebase for real-time database management, enabling 100% secure user authentication, efficient order processing, and accurate inventory tracking, improving operational efficiency by 20%.
- Engineered scalable and modular React components, leveraging Firebase as the backend for maintainability and scalability, enabling future feature expansion with 50% faster deployment times. Throughout the development process, I used Git and GitHub for effective version control, managing the source code repository.

### Infinite Ink [blog site]

- Developed and integrated a dynamic content management system using Appwrite backend, enabling the creation, editing, and deletion of posts with 99% efficiency, ensuring seamless user interactions.
- Implement a scalable and secure authorization system using Appwrite, enhancing user management and improving security protocols by 25%, resulting in a more secure and responsive application.
- Optimized responsive web design using React.js and Tailwind CSS, ensuring consistent performance across 100% of devices and reducing page load time by 30%, leading to improved user experience and engagement.

### Practice Projects

- Taskly - A To-do App
- Currency Converter
- Contact App
- Weather App

## SKILLS

---

**Frontend Technologies:** React.js, JavaScript (ES6+), HTML, CSS3, Redux, Tailwind CSS, UX/UI, Responsive Design

**Backend Integration:** Appwrite, Firebase, Node.js    **Development Tools:** Version Control (Git, GitHub), VS Code

**Soft Skills:** Strong Communication, Problem-Solving, Collaboration    **Programming Languages:** C++, Python

## LANGUAGES

---

English (Proficient), Hindi (Native), Urdu (Native)
